RE: FCC ID: UA9300

Dear Application Examiner:

We recently completed an upload and issued a grant of equipment authorization for FCC ID UA9300. Our policy is to send the entire application package to the customer to do a final review of the exhibits before we upload. The customer did the review and gave us the ok, but unfortunately after looking at the grant (after upload) they realized they had requested Limited Modular Approval rather than Full Modular Approval. There is nothing in the filing that would prohibit Full Modular Approval, so our Certification Committee authorized the change. A new cover letter and a new modular approval letter have been uploaded and should supersede the cover letter and modular approval letter that were originally submitted.

Best regards,

Northwest EMC, Inc.
